Fullstack Developer with 6+ years of experience crafting scalable, user-centric web and mobile apps. Expert in **JavaScript, TypeScript, React, Node.js, Next.js, Ruby on Rails, PHP/Laravel, Flutter, MongoDB, SQL**, and tools like **Git, Docker, AWS**. Passionate about leveraging **AI** from **OpenAI**, Anthropic's **Claude**, **Ollama**, and beyond to build intelligent, adaptive features. Delivering end-to-end solutions in ecommerce, education, and management, with a focus on performance, usability, and maintainability.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, React, Node.js, Next.js, Ruby on Rails, PHP/Laravel, Flutter, Dart, Express.js, SCSS, tRPC

Databases: MongoDB, PostgreSQL, MySQL

Tools & Platforms: Git, Docker, Linux, AWS, Figma, Adobe Suite, AI/ML integration with OpenAI, Ollama, Claude, Hugging Face, ffmpeg

Other: API integration, UI/UX design, server deployment, mentorship, Agile workflows

Professional Experience

Fullstack developer - Developatic - Algiers, Algeria – Jul 2023 to Oct 2025

- Developed and maintained secure, scalable backend APIs using PHP/Laravel, handling workloads for a client in the security sector.
- Built responsive, dynamic frontends with React and Inertia.js.
- Deployed and managed applications on Linux servers using Docker, ensuring uptime and streamlined CI/CD pipelines.
- Integrated AWS services (e.g., S3, EC2, MediaConvert) to enhance application scalability and data management.
- Optimized and tuned sql queries to optimize large data fetching.
- Supported on-boarding and guiding new hires on best practices in web development.

Showcase: [Heyu](#)

Web and mobile developer - TREX IT - Batna, Algeria - Aug 2019 to Oct 2022

- Prepared mocks up and designs for web and mobile apps using figma.
- Built and launched ecommerce and dashboard platforms using React and Flutter for web and mobile respectively.
- Integrated first- and third-party APIs (e.g., Ridebits) to enable real-time features for a transportation booking platform.
- Maintained Linux hosting environments, optimizing server performance and reducing load.
- Mentored and guided interns in mastering visual design and web development fundamentals, resulting in 2 being hired full-time.

Side projects

- **Tayssir Travel** (Flutter, Next.js, TypeScript, PostgreSQL): Developed a mobile app and backend for trip booking. [Link1](#) – [Link2](#)
- **Almas Store** (Next.js, TypeScript, PostgreSQL, tRPC, SCSS, Ollama): Created a multi-vendor ecommerce platform with secure, scalable APIs and a modular customizable frontend and an AI assistant to help with products management.
- **Orona jewelry store** (Flutter, Dart, Express.js, MongoDB): Built a mobile app with a custom backend, enabling seamless product browsing and transactions.

Other work

Hardware technician - JTECH MEDIA SERVICE - Batna, Algeria – May 2018 to Jun 2019

- Diagnosed and repaired hardware issues for PCs, smartphones, and tablets, achieving a 95% customer satisfaction rate.
- Provided technical support and training to 50+ clients, improving their ability to use and maintain devices effectively.
- Streamlined equipment installation processes, reducing setup time by 15% through standardized workflows.
